Project Manager JH Unit Leader
Initials Initials

A. PROJECT DESCRIPTION

1. Current situation: describe the existing situation, what needs to be corrected and why (attach a highlighted copy of all documents referenced as mandating or requiring this project.)

Due to the magnitude and complexity of the City Light power system, unforeseen projects occur on a regular basis. These are sometimes due to equipment failure or non-maintenance repairs. Many of the projects are for minor improvements which do not merit full CIP status. The following is a list of sample projects completed in past years under this program element.
